

## Biju Patnaik Energy Park

Biju Patnaik

Energy Park, Bhubaneswar is a rare blend of down to earth technologies and stark amusement. Conceptualized and designed by OREDA, the park provides volumes of information on application of renewable energy technologies, energy conservation and energy efficiency. Depictions through working models, live demonstrations, interactive media and audio-visual presentations closely communicate with the thought process of the visitors and provide them a deep insight into the scientific, economic and societal aspects of energy.

The park was set up under Special Area Demonstration Programme (SADP) of Ministry of New & Renewable Energy (MNRE). MNRE sanctioned setting up of State level Energy Park at a total Share of Rs. 60,76,000/- in 2001-2002. Though initially the park was supposed to be located in Kalinga Nagar, un favorable topography of the area compelled OREDA to shift to a new location at Khandagiri. Bhubaneswar Development Authority (BDA) provide 4 Acre of land on the south west side of the existing Kharvel Park, Khandagiri. However, due to encroachment by the adjacent plots only 2.5 Acre was actually available for setting up the park. With all these space constraints the park was finally dedicated to the public on 10.12.06 by Sri Naveen Pattanik, Hon'ble Chief Minister of Orissa.. The park has been divided into distinct activity zones namely Urja, Oriana, Aditya, Mitra, Bhaskar and Ishban which respectively represent the waste to energy resource centre, Children's corner, indoor exhibit gallery, conference room,

interactive media centre and Office. Besides there are several out door exhibits which are either live demos or working models of different renewable energy devices which depict their working principles, applicability and a host of other information. Each of the activity zones and the exhibits have a great deal to offer to the inquisitive visitors.

Many of the facilities are available to interested people on hire.

1. Conference room
  - 75 seated
  - Air conditioned
  - Audio visual facility
  - 2000/- & 3000/- for ½ & full day
