## **1. Program Background:**

Under the “Solar Pumping Program for Irrigation” launched by MNRE, GoI Government of Odisha is desirous of energizing the bore wells installed in farmers’ field under the “Deep Bore Well Secha Karyakram”. Initially the program will be implemented in places where energization through conventional means is found difficult.

Government Odisha has also decided to provide necessary financial support so as to make it affordable to small and marginal farmers. Such support can also be extended to other farmers/ farmers’ groups who have installed bore wells for irrigating their lands under different government programs being implemented by Agriculture Department, Horticulture Department, SCST Development Department, Forest Department, Watershed Mission etc.

Apart from 3HP/3 KWp pumps it has been decided to support Brushless DC solar PV motor pump sets with 4800 Wp PV array and 5 HP Submersible pump with controller (MNRE-Model -VI).

For procurement of the pumps and installation, commissioning and maintenance of the same in turnkey mode through the supplying firms this tender is being floated by OREDA, the State Nodal Agency with a view to bring in the top companies/firms in the country engaged in the business of manufacture/integration of solar PV pumps as per the technical requirements laid down by MNRE, GoI.

## 2. Scope of Work

The broad scope of the work includes supply, installation, commissioning, testing, handing over and maintenance (for 5 years) of 4800 Wp PV array and 5 HP Submersible pump with controller (MNRE-Model -VI) as per technical specifications provided in this tender document. The pumps will be installed across the state in the bore-wells of identified farmers. The specific actions under these scopes are

- a. Collection of the list of farmers and their addresses from OREDA or its authorized offices/persons.
- b. Collection of water discharge reports of the designated bore wells from OREDA or its authorized offices/ persons.
- c. Visit the farmers and identify the designated bore well.
- d. Locate an ideal space for installation of the PV array, control equipment etc. in consultation with the farmer. Before doing so the farmer has to be made aware of the details of the scheme and its different aspects.
- e. Obtaining clearance of the farmer (in the given format) for installation of the pump in a mutually decided location under the possession of the farmer.
- f. Finalization of the probable date of installation in consultation with the farmer.
- g. Transportation of the pumping system along with all its components/ subcomponents to the village concerned and if required storing the same in a safe place within the village in consultation with the farmer. OREDA shall not be the consignee to receive the materials supplied/ delivered.
- h. Installation of the solar PVarray, pump, control equipment etc. in the presence of the farmer. During installation the farmer must be introduced to the various components and sub components of the system and should be given tips about their maintenance, upkeep, safety etc.
- i. After installation, the operation of the pump must be demonstrated to the farmer and she/he should be adequately trained in the operation, maintenance and upkeep of the pump.
- j. On completion of training the pump should be handed over to the concerned farmers in the presence of the authorized representative of OREDA, authorized representative of the sponsoring government department, VAW and such other persons who may be available in the village.
- k. Collection of all documents, including GPS tagged photograph showing the PV array, water discharge from the pump and the farmer in the inset.
- l. Installation of a sign board (preferably made of aluminum sheet) under the PV array on which the name of the farmer, date of installation of the pump, name of the supplying firm, name of the person responsible for installation, telephone number of

- the service centre/ toll free number for service enquiries and all other relevant information must be written legibly in Odiya language only.
- m. Following commissioning of the project, submission of all documents as detailed in the tender document including the joint Commissioning report to OREDA to facilitate payment.
  - n. Periodic maintenance of the system as detailed in this tender.
  - o. Opening of service centre/keeping servicing personnel and making available all essential spares in the vicinity of the solar water pumping system.
  - p. Submission of periodic reports and returns as per the MIS prescribed by OREDA from time to time.
  - q. Coverage, Comprehensive Maintenance for 5 years.
  - r. Performance guarantees for the rated delivery / discharge of water as per standard test condition.
  - s. Getting the drawing of the module mounting structure with double axis manual tracking arrangement approved by OREDA before commencement of work.
  - t. While cabling the array, care must be taken to firmly tie the cables to the panel frame structure. No loose / open cables lie anywhere in the field or area around the array.

- ff. On award of contract the qualified bidder shall be termed as executing agency.

**Opening of the bids:**

The procedure of opening of the bid shall be as under

- i) The bid shall be opened at the time & date mentioned in the bid notice in the presence of bidders, who choose to be present or their authorized representatives.
- ii) After evaluation of the technical bids and shortlisting of vendors by the designated committee of OREDA intimations will go to short-listed vendors only for opening of the financial bids.
- iii) During evaluation of the technical bids, if such necessity arises, the bidders may also be called for making presentation on their technical offers.

**Acceptance/ Rejection of the bid documents:**

Chief Executive, OREDA reserves the right to reject or accept any bid or annul the bidding process at any time prior to award of contract, without having prejudice of incurring any liability to the affected bidders or any obligation to inform the bidders.

**Chief Executive**

I/we have carefully read & understood the above terms & conditions of the bid & agree

to abide by them.

#### 4. COMMERCIAL TERMS & CONDITIONS

##### 4.1 Rate:

The offer should indicate the unit cost of the system, Installation & Commissioning charges, CMC Charges and taxes & duties separately (Annexure I, J,K,). The unit cost must be inclusive of packing, forwarding, loading & unloading charges, cost of insurance(transit as well as post installation for 5 years) and transportation FOR destinationsthroughout entire state where the system will be installed as per the order.

##### 4.2 Tax & Duties etc.:

All taxes and duties as admissible will be deducted from each bill and certificate for such deduction will be issued.

##### 4.3. Earnest Money Deposit:

- 4.3.1 Earnest money deposit Rs.15.00 (fifteen) lakh as specified in the Table above is required to be deposited along with the bid without which the bid will not be accepted. No interest will be payable on the EMD amount under any circumstances.
- 4.3.2 Earnest money shall be submitted in shape of a Demand Draft in favour of Chief Executive, OREDA from any Nationalized Bank Payable at Bhubaneswar and the proof of deposits should be attached to the bid. E.M.D would be refunded to the unsuccessful Bidders after finalization of the bid without any interest.
- 4.3.3 E. M. D would be forfeited in case of non- compliance of the purchase order by the successful bidders. **EMD submitted shall be returned to successful bidders only after Security cum Performance Bank Guarantee against the entire allotment is deposited.**
- 4.3.4 In case of claim for exemption from deposit of Earnest money sufficient proof in support of claim for exemption of EMD as prescribed in Govt. of India Notification is to be attached with the bid.

##### 4.4 Security Deposit/ Performance Guarantee Fees:

The successful bidders must deposit **Two numbers of bank guarantees** (Annexure-H) towards Security cum Performance Guarantee fees with the Chief Executive, OREDA, Bhubaneswar along with bills, challans and all other documents as per payment clause before processing of payment as follows

- i) 5 % of the ordered value in shape of irrevocable Bank Guarantees with **5½ years validity** from the date of supply, installation and commissioning till the completion of respective warranty and CMC period of the composite system.
- ii) 5 % of the ordered value in shape of irrevocable Bank Guarantees with **10½ years validity** from the date of supply, installation and commissioning till the completion of respective warranty period of the module.

### **Refund / forfeiture of security deposit/performance Bank Guarantee**

The said deposit would be forfeited in the following cases

- u. if the systems are not installed and commissioned as per given schedules.
- v. If the systems are not properly maintained and the performance of the systems do not meet the standards mentioned in the work orders.

The first security deposit amount will be refunded after the expiry of the Warranty period and CMC period of the systems i.e 5 years after commissioning of each system, subject to satisfactory execution / performance of the systems.

The 2<sup>nd</sup> PBG will be refunded after the expiry of 10 years i.e module performance guarantee after successful performances.

#### **4.5 Work Execution Schedule:**

The work shall be executed only after receipt of the certified farmers' list from OREDA. Under normal circumstances a given work order must be fully accomplished within 180 days of receipt of the work order as well as the certified farmers' list.

In case of site problems that are beyond the control of the vendor and are likely to delay the execution the same must be promptly brought to the notice of OREDA and time extension/ alternate site may be sought failing which penalty clauses under this tender shall be applied against the delayed work.

Execution of work shall be carried out in an approved manner as outlined in the technical specification or where not outlined, in accordance with the relevant Indian Standard Specification, to the reasonable satisfaction of the Authorized OREDA Officer.

Upon intimation about commissioning of the systems by the vendor a joint inspection will be carried out by OREDA, representative of the sponsoring Govt. department/agency and the vendor.

After such inspection a Joint Commissioning Report (JCR) shall be taken out with signatures of all above officers as well as the concerned farmer which shall form a major document for release of payment.

#### **4.6 Validity of offer:**

The price bid offer must be kept valid for a period of one year from the date of opening of the technical bid. No escalation clause except the admissible tax component under the period of consideration would be accepted.

**4.7 Tax return:**

The bidders must submit attested copy of valid up to date CST / VAT clearance / e-filling submission certificate along with the bid. The bid would not be considered without this document.

The original certificate would be produced at the time of opening of the bid, or, before issue of purchase order, if required.

**4.8 Warranty:**

The Supplier warrants that the Goods(as per the test report issued by authorized test centre) supplied under this Contract are new, unused, of the most recent or current models and incorporate all recent improvements in design and materials unless provided otherwise in the Contract. The Supplier further warrants that the Goods supplied under this Contract shall have no defect arising from design, materials or workmanship (except when the design and/or is required by the Purchaser's Specifications) or from any act or omission of the Supplier, that may develop under normal use of the supplied Goods in conditions prevailing in the country of final destination.

This warranty shall remain valid for 60(sixty) months after the Goods or any portion thereof as the case may be, have been delivered to and commissioned and accepted at the final destination indicated in the Contract.

The Purchaser shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall repair or replace the defective Goods or parts thereof, without cost to the Purchaser other than, where applicable, the cost of inland delivery of the repaired or replaced Goods or parts from the port of entry to the final destination.

If the Supplier, having been notified, fails to remedy the defect(s), the Purchaser may proceed to take such remedial action as may be necessary, at the Supplier's risk and expense and without prejudice to any other rights which the Purchaser may have against the Supplier under the Contract.

**4.9 Penalty and termination of contract:**

The systems shall be supplied, installed and commissioned within the scheduled time as mentioned in the supply / installation order. If the supplier fails to adhere to the schedule, OREDA shall without prejudice to its other remedies under the contract deduct from the contract price as liquidated damages a sum equivalent to 1% of the delivery price of the delayed goods or unperformed services for each week of delay until actual delivery or installation/commissioning up to a maximum deduction of 5% of the contract price for delayed goods or installation and commissioning. Once the maximum is reached (i.e. 5 weeks of delay) OREDA may consider termination of the contract and forfeit the security deposit without prejudice to the other remedies of the contract.

If at any time during the performance of the Contract the supplier should encounter conditions impeding timely delivery of the Goods and performance of the Services, the Supplier shall promptly notify the Purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the Supplier's notice, the OREDA shall evaluate the situation and may at its discretion extend the Supplier's time for performance, with or without liquidated damages, in which case the extension shall be ratified by the parties by amendment of the Contract.

A delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of liquidated damages pursuant, unless an extension of time is agreed upon without the application of liquidated damages.

#### **4.10 Termination for Default**

The Purchaser may, without prejudice to any other remedy for breach of contract, by written notice of default sent to the Supplier, terminate the Contract in whole or in part:

- 4.10.1 if the Supplier fails to deliver any or all of the Goods within the period(s) specified in the Contract, or within any extension thereof granted by the Purchaser; or
- 4.10.2 if the Supplier fails to perform any other obligation(s) under the Contract.
- 4.10.3 If the supplier, in the judgment of OREDA has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

For the purpose of this clause:

“Corrupt practice” means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution. “fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution or a contract to the detriment of the borrower, and includes collusive practice among bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the borrower of the benefits of free and open competition.

In the event the Purchaser terminates the Contract in whole or in part, the Purchaser may procure, upon such terms and in such manner as it deems appropriate, Goods or services similar to those undelivered, and the Supplier shall be liable to the Purchaser for any excess costs for such similar Goods or services. However, the Supplier shall continue the performance of the Contract to the extent not terminated.

#### **4.11 Inspection:**

Pre delivery inspection of major components may be carried out by a team of designated officials of OREDA, any other department as may be considered

appropriate at the factory site of the vendor / manufacturer. Before despatch of consignment intimation shall be given sufficiently ahead so that no delay occurs for deputed officials and inspection at the premises / test site.

4.11.1 The rest of the tests and inspections shall be made at the place of delivery. Officers authorized by OREDA shall be entitled at all reasonable time to inspect and supervise and test during erection and commissioning. Such inspection will not relieve the executing firm of their obligation in the contract. The water output as per technical specification has to be guaranteed without any controversies of variation of water table.

4.11.2 OREDA shall have the right to have the tests carried out at its own cost by an independent agency at any point of time.

#### **4.12 Payment:**

Payment will be made in instalment of minimum 10 (ten) solar water pumping system installed out of the total supply / installation order issued against the respective executant in the following manner

i) **90%** of the total value of systems with full taxes / duties (excluding CMC charges) will be made after commissioning of the project. The check list of documents to be submitted along with the bills and Security cum Performance Bank Guarantee for release will be as per the purchase order issued.

For processing of the payment the indicative documents are to be submitted like (Annexure-B,C,D,E,F) all technical detail of the installed system, inspection and testing report, GPS tagged photograph of the solar PV array, pump with the farmer in the inset, handing over report, Warranty certificate, Joint commissioning certificate.

ii) Balance **10%** of the systems and other order value (excluding CMC charges) will be released after 3 months of successful functioning of the system subject to submission of power consumption/flow data and other relevant deliverables recorded on the digital data logger installed in the controller of the system and submission of all documents (report of completion training and signing of CMC effective from the date of total commissioning of systems of the supply / installation order) as given in the purchase order.

#### **4.13 Allocation of supply / installation & Execution:**

**All supply / installation orders shall be placed with the state local registered office of the qualified empanelled bidders having valid Odisha TIN/ OVAT as per the FD circular no 5439 dtd 25.2.14.**

In view of large geographical spread and expeditious completion of the project, it is imperative that there shall be multiple vendors subject to their acceptance to the L1 price discovered in the tender.

OREDA shall distribute the initial 30% of total quantity of work in hand amongst those successful bidders who submit their acceptance to L1 price.

Depending upon the performance of the vendors with regards to quality of execution and timely completion of the allotted projects, subsequent allocations shall be considered in batches.

If L1 bidder continues to perform as per the stipulations under this tender care will be taken to give them at least 30% of the total order.

The allotment of the area / districts will be the discretion of the OREDA authority. However, while allocating the work / care will be taken to allot contiguous patches to bidders so that subsequent maintenance etc will be easier.

#### **4.14 Comprehensive Maintenance Contract:**

CMC will be applicable during the period of the warranty period of 5 years. The bidder must enter into a Comprehensive maintenance contract for the specified period at the time of execution of the order. Offer without such CMC shall not be considered (sample format of CMC enclosed at Annexure). The scope of CMC must cover supply of all spare parts, services and performance reports during the contract in force. Order shall be placed on bidders who agree to offer such CMC. The CMC charges quoted by the bidder must be realistic in view of actual rendering of after sale services. The payment of annual maintenance charges under the Comprehensive Maintenance Contract shall depend upon the functionality of the system duly certified by the concerned authorized officials of OREDA/ submission of power consumption, flow data and other relevant deliverables recorded on the digital data logger installed in the controller of the system. Upon receipt of such certificates CMC amount as applicable shall be paid at the end of 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> years.

#### **4.15 Limitation of Liability:**

OREDA, will, in no case be responsible for any accident fatal or non-fatal, caused to any worker or outsider in course of transport or execution of supply / installation. All safety measures as per prevailing norms should be adopted. All the expenditure including treatment or compensation will be entirely borne by the Executants. The Executants shall also be responsible for any claims of the workers including PF, Gratuity, ESI & other legal obligations. The executants shall take all steps towards the security compliances.

**4.16 Force Majeure:**

In no event shall either Party have any liability for failure to comply with this Agreement, if such failure results directly from the occurrence of any contingency beyond the reasonable control of the Party, including, without limitation, strike or other labor disturbance, riot, major power failure, war, natural calamities including but not limited to floods, earthquakes, fire, volcanic eruptions, epidemics, National Emergency, interference by any government or governmental agency, embargo, seizure, or enactment or abolition of any law, statute, ordinance, rule, or regulation (each a " Force Majeure Event"). In the event that either Party is unable to perform any of its obligations under this Agreement because of a Force Majeure Event, the Party who has been so affected shall as soon as may be, after coming to know of the Force Majeure Event, inform the other Party and shall take reasonable steps to resume performance as soon as may be after the cessation of the Force Majeure Event. If the period of nonperformance due to a Force Majeure Event exceeds thirty (30) days, the Party whose ability to perform has been so affected may, by giving written notice, terminate this Agreement.

**4.17 Dispute:**

For adjudication of any dispute between OREDA and the bidders arising in this case, reference can be made to any Law courts under the jurisdiction of Odisha High court only. The Chief Executive, OREDA reserves the right to accept or reject any or all bids without assigning any reason thereof.

**Chief Executive**

I/We have carefully read and understood the above terms and conditions of the bid and agree to abide by them.

## **Specifications of the proposed models of SPV pump for irrigation**

### **1. Standards/Quality:**

#### **A. PV ARRAY**

The SPV water pumping system for irrigation proposed under this tender should be operated with a PV array of 4800 Watts peak capacity measured under Standard Test Conditions (STC). Modules having capacity above 200Wp should only be provided in the array to obtain the required array power output. Indigenously produced PV module (s) containing mono/ multi crystalline silicon solar cells should only be used.

- Modules supplied with the SPV water pumping systems should have certificate as per IEC 61215 specifications or equivalent National or International/ Standards.
- Modules must qualify to IEC 61730 Part I and II for safety qualification testing.
- The efficiency of the PV modules should be minimum 14% and fill factor should be more than 70%.
- The terminal box on the module should have a provision for “Opening” for replacing the cable, if required.

#### **B. MOUNTING STRUCTURES AND TRACKING SYSTEM**

- The PV modules should be mounted on three metallic structures consisting of a sturdy steel mast with a pedestal of appropriate strength that can be grouted into a concrete foundation and a steel framework of adequate strength to fasten the modules. The structure should be appropriately designed to withstand high wind velocities up to 200 km per hour.

**(The bidder is required to submit a certificate from an authorized chartered engineer with regards to the strength and durability of the structure)**

- All steel members of the structure including the pole, base plate, braces etc. should be hot dip galvanized with minimum 80 micron thickness.

- Only anti-theft fasteners should be used in the mounting structure.
- To enhance the performance of SPV water pumping systems, manual or passive tracking system must be used with arrangement for seasonal tilt angle adjustment and three times manual tracking in a day should be provided.
- Since security of solar panels is a major concern it is required to design the pole and structure in such a way so that the chances of theft can be minimized.  
**(the bidder is required to provide a detailed note on their proposed arrangements for minimizing the chances theft)**

### C. MOTOR PUMP-SET

The SPV water pumping systems should use only DCBL submersible motor pump set only with due approval from Test Centres of the Ministry. Solar Pumps should have the following features:

- The pump should be provided with specially developed mechanical seals so as to ensure zero leakage.
- The suction and delivery head will depend on the site specific condition of the field.
- The suction/ delivery pipe (GI/HDPE – 63 mm), electric cables (4sqmm), civil work and other fittings required to install the system.
- The following details should be marked indelibly on the motor pump set
  - a) Name of the Manufacturer or Distinctive Logo,
  - b) Model Number and serial Number.

#### **D. ELECTRONICS AND PROTECTIONS**

- Maximum Power Point Tracker (MPPT) should be included to optimally use the Solar panel and maximize the water discharge.
- Adequate protections should be incorporated against dry operation of motor pump set, lightning, hails and storms. Full protection against open circuit, accidental short circuit and reverse polarity should be provided.
- Most parts of Odisha being prone to lightning adequate protection must be given against the same by providing appropriate lightening arrester, Surge Protection Devices etc.

#### **E. ON/OFF SWITCH**

A good reliable switch suitable for DC use is to be provided with the motor pump set. Sufficient length of cable should be provided for inter-connection between the PV array and the motor pump set.

**Provision for remote monitoring of the installed pumps must be made in the controllers or the inverters either through an integral arrangement or through an externally fitted arrangement. It should be possible to ascertain the daily water output, the power generated by the PV array, the UP TIME of the pump during the year, Number of days the pump was unused or under breakdown/repairs.**

- The controller must have IP 54 protection or must be housed in a cabinet having at least IP 54 protection.
- Adequate protections should be incorporated against dry operation of motor pump set, lightning, hails and storms.
- Full protection against open circuit, accidental short circuit and reverse polarity should be provided.

## **OPERATION AND MAINTENANCE MANUAL**

An Operation and Maintenance Manual in Odiya language, should be provided with the solar PVpumping system. The Manual should have information about solar energy, photovoltaic, modules, DC motorpump set, tracking system, mounting structures, electronics and switches.

It should also have clear instructions about mounting of PV module, DO's and DONT's and on regular maintenance and Trouble Shooting of thepumping system. Name and address of the person or Centre to be contacted in case of failure or complaint shouldalso be provided. A warranty card for the modules and the motor pump set should also be provided to thebeneficiary.

### **Head Vrs Discharge:**

**The discharge of the pumps should not be less than 1,00,800 litres per day from a total head of 50 mtres. The Shut off Dynamic Head being 70 meters on a clear sunny day with three times tracking of SPV panel, under the "Average Daily Solar Radiation" condition of 7.15 KWh/ sq.m. on the surface of PV array (i.e. coplanar with the PV Modules).**

**F. For better appreciation, the Solar PV water pumping systems must be provided with remote monitoring system. In case of mobile network is not available, the same may be provided with data dumping system.**

**Check list of documents to be submitted along with the bid**
